

DRILL FASTER LONGER

BICO Drilling Tools brings more strength with the all new **7" Hyper Performance Mud Lubricated Drilling Motor**

BICOBEST

Introducing the BICOBEST, a 7" Drilling Motor capable of continuously transferring 850 hp & 19,000 ft-lbs to the bit for record breaking ROP.

Available exclusively with BICO's Ultra Performance SpiroStar Supreme Power Sections.

Features a short 55" Bit to Bend without sacrificing tool life.

Built with state of the art TaperLoc radial bearings.

The BICOBEST provides 36% greater torque capability and 50% greater resistance to fatigue when compared to the BICO G2 series of motors.

FEATURES:

- Fatigue resistant forged drive shaft
- High Performance thrust bearings
- TaperLoc high performance radial bearings
- Driveshaft retention safety system
- Near Bit stabilization for all common hole sizes or a slick bearing section
- Heavy Duty transmission
- Fixed Bend Housings in all common degree settings
- Spirostar Supreme Evenwall Power Sections with HardHead rotors
- Top sub rotor catch safety system
- Top subs bored for float
